

On asset update, a report to show the price trend ie price movement

Eg if I update an asset 4 times, can it track those changes? 11:34 PM

So for the add assets. We have to separate the assets have a return or a dividend from the non-financial assets. I used the example of a Rolex earlier, which does not incur any income. But if I am buying a stock, I would like to use that mark-to-market that. So if I go to my balance sheet and click "add assets", then that little radio box that says, "is it income generating", if I click that, you should allow me to impute. 11:39 PM

Tuesday

To log in, the password needs to be visible, so I know if I am typing correctly. usually they is an "eye" icon you can hit to view what you are typing in 3:19 AM

on "add income page" Nigerian are paid monthly, but can you add biweekly because many Nigerians earn and are paid biweekly 3:22 AM

This tax should be changed to PAYE. We can do a calculation that inputs what your PAYE will be once you input gross pay, or give an option for manual entry 3:26 AM

Nigeria New Tax Law 2026 Calculator

This Nigeria New Tax Law Calculator 2026 guides you to calculate how much PAYE tax to pay from your employment income.
www.smepayroll.com.ng

Add income. Use this as a calculator for income. I select "I want to add a salary, this schedule should drop down. If I input salary, it has the relevant Nigerian deductions for pension and taxes. This is perfect. Also add this under the calculator as "calculate PAYE". <https://www.smepayroll.com.ng/nigeria/payee/taxreform>

3:31 AM

The screenshot shows the 'Nigeria New Tax Law 2026 Calculator' interface. The 'INCOME' section is highlighted with a red circle, showing options for 'Salary' and 'Pension'. The 'Pension' option is selected. The 'GROSS AMOUNT (N)' is set to 'N. 5,000,000'. The 'NET AMOUNT (N)' is set to 'N. 4,500,000'. The 'PENSION (N)' is set to 'N. 500,000'. The 'TAXES' section is also visible, showing 'PAYE' and 'Withholding Tax'.

Just in case, it's the income tax, or what we call PAYE. You can add a feature that generates a separate pay slip for the user

3:34 AM

The screenshot shows the 'Add Income Source' form. The 'INCOME TYPE' dropdown is highlighted with a red circle, showing 'Pension (Rent / Property)' as the selected option. The 'CURRENCY' is set to 'NIG (N)'. The 'FREQUENCY' is set to 'Annual'. The 'GROSS AMOUNT (N)' is set to 'N. 5,000,000'. The 'NET AMOUNT (N)' is set to 'N. 4,500,000'. The 'PENSION (N)' is set to 'N. 500,000'. The 'TAXES' section is also visible, showing 'PAYE' and 'Withholding Tax'.

Add Income. The tax should only be called "PAYE" when I select 'Active Income' if I select Passive Income, like rent, then it should just be property tax or taxes. Similarly, if I select investment income, it should be "taxes"

3:43 AM

The screenshot shows the 'Add Income Source' form. The 'CURRENCY' is set to 'NZD (NZ)'. The 'INCOME TYPE' dropdown is set to 'Investment (Dividends / ...)' and is circled in red. The 'FREQUENCY' dropdown is set to 'Monthly' and is also circled in red. The 'GROSS AMOUNT (NZ)' is set to 'N 0'. The 'TAX (NZ)' is set to 'N 0'. The 'PENSION 8% (NZ)' is set to 'N 0'. The 'NOTES (OPTIONAL)' field contains the text 'e.g. Includes NZ\$1000 transport allowance'. The 'Cancel' and 'Add Income' buttons are at the bottom.

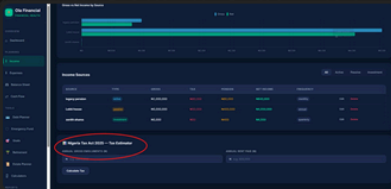

Add Income, investment income, dividends are also paid semi-annually, please include semi-annual in options under frequency

3:45 AM

The screenshot shows the 'Add Income Source' form. The 'CURRENCY' is set to 'NZD (NZ)'. The 'INCOME TYPE' dropdown is set to 'Investment (Dividends / ...)' and is circled in red. The 'FREQUENCY' dropdown is set to 'Quarterly'. The 'GROSS AMOUNT (NZ)' is set to 'N 5,000'. The 'TAX (NZ)' is set to 'N 50'. The 'PENSION 8% (NZ)' dropdown is set to 'N 0' and is circled in red. The 'NOTES (OPTIONAL)' field contains the text 'e.g. Includes NZ\$1000 transport allowance'. The 'Cancel' and 'Add Income' buttons are at the bottom.

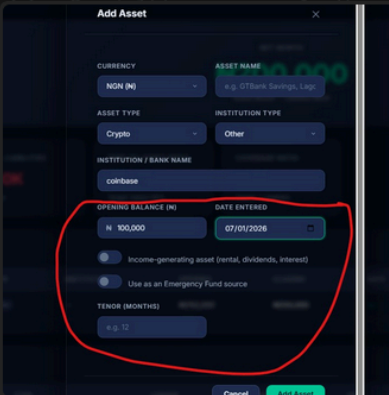

Add Income, for passive and investment income, there will be no pension contribution drop-down; the pension and other deductions will only drop down if i select "active income"

3:47 AM

Add income. This calculator should be updated based on the comments above using the SME Payroll calculator. The drop-down on the SME calculator should appear when I select active" income. This calculator, updated, should go to the "calculator module"

4:03 AM

Add Assets. We have to update so we can track

Add Assets. We have to update so we can track the return on assets added, meaning this drop-down should be 1. name of asset. 2. Cost per unit. 3. quantity. Total cost 5. Average cost, which is the total cash used to buy that specific investment divided by the number of individual units I own. This is important, so if I add more units of the same assets at zero cost (via a script or bonus shares) or do a dividend reinvestment plan where I buy more shares with my dividends, it will reduce my average cost. This helps in the calculation of the ROI of the entire portfolio or a single asset. meaning I can calculate how much profit my shares of, for example, Micron have made or how much my entire portfolio has done

4:31 AM

Add Asset

CURRENCY: NIG (N) ASSET NAME: e.g. (1) Bank Savings (Log)

ASSET TYPE: Fixed Deposit / T-Bill INSTITUTION TYPE: DAB (Commercial Ban)

INSTITUTION / BANK NAME: HAB

OPENING BALANCE (N): 500,000 DATE ENTERED: 07/01/2008

☒ Income-generating asset (rental, dividends, interest)

☐ Use as an Emergency Fund source

INTEREST RATE (% P.A.): 0.00 EXPECTED ANNUAL INCOME (N): 45,000

TENOR (MONTHS): e.g. 12

Add Assets. APY does not go beyond 9%, and it's hard to delete. Rates in Nigeria can go as high as 30%

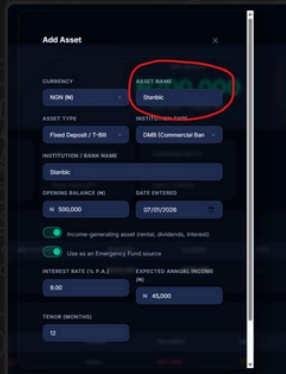

4:43 AM

Add ASSETS. if you try to add an asset without selecting 'asset name', the asset add screen will simply disappear.

4:48 AM

Kalu

 Add Assets. We have to update so we can track the return on assets added, ...

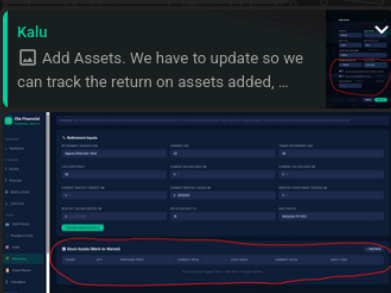

This mark-to-market is what I speak of. It should be on the add assets for every asset so we can track ROI. Please add a column for "average cost"

Can reports and screen shots be sharable to X, instagram etc? what a watermark that its from Pull.com? that way i can use it for my analysis. If yes, can you add an "eCONOMIC DASHBOARD" That will pull Nigeria GDP per capital growth rate for queater, Inflation rate per month, Exchaneg rate to \$ and GBP, AND mONETARY pOLICY rATE plus fx reserves. Sources for this data are the CBN and the Nigerian Bureau of Statistics. i will put links below 5:25 AM

can you add a question on if the user prefer sharia compliant insurance

✓ Updated Insurance Product Selection Questionnaire Template

I've added a clear question about Sharia-compliant (Takaful) insurance. I placed it in Section 1 (Personal Profile) because it's a fundamental preference that affects which products I can recommend.

Here's the complete updated template:
